PROFILE

Motivated and results-driven Computer Science Engineering student with a solid foundation in software development, algorithms, and data structures. Proficient in programming languages such as Java, Python, and C++, with hands-on experience in web development and database management. Proven ability to solve complex problems, work effectively in team environments, and manage projects from concept to completion. Eager to leverage technical skills and passion for technology in a challenging role at an innovative organization. Committed to continuous learning and contributing to cutting-edge solutions.

EXPERIENCE

- **Goldman Sachs Software Engineering Virtual Experience Program on Forage|Goldman Sachs**
- Sep 2023
- Completed a job simulation as a Goldman Sachs governance analyst responsible for assessing IT security and suggesting improvements
- Identified that the company was using an outdated password hashing algorithm by cracking passwords using Hashcat
- Wrote a memo for my supervisor summarizing a range of proposed uplifts to increase the company's level of password protection including extending minimum password length and using a dedicated hashing algorithm.

- **Google for Developers Virtual Internship|Google for Developers**
-
- Successfully completed a virtual internship with Google for Developers, specializing in Android app development
- Developed and implemented new features, improved app functionality, and ensured compatibility with the latest Android OS updates
- This internship provided valuable insights into Android development practices and enhanced my skills in a virtual work environment, contributing to a solid foundation for a career in mobile app development.

PROJECTS

- E-VOTING WEBSITE
- Developed an e-voting website leveraging blockchain technology to ensure secure, transparent, and tamper-proof elections. Implemented smart contracts for automated vote counting and verification, enhancing the reliability and efficiency of the voting process.

- TO DO LIST
- Created a dynamic to-do list application using JavaScript and HTML, integrating with a REST API for seamless data management. The application supports CRUD operations, providing users with an intuitive interface to add, update, and delete tasks efficiently.
